Eric's Homework Policies

E-mail: *kercher.e@husky.neu.edu*

Phone: +1 (406) 381-7014

1. All solutions should be typed and submitted in a **.docx** or **.pdf** format.
2. To receive full credit you must show all of your work and append any Matlab code you develop with your submission.
3. You are allowed, and encouraged, to work in your project groups to solve homework problems. You may submit one copy of the homework for your group, please put all members' names on the assignment.
4. Please practice good coding etiquette and submit sufficiently commented code. I reserve the right to deduct points for messy and/or un-commented code.
5. All graphs and plots should have a title, properly labeled axes with units, and a legend if needed. I reserve the right to deduct points for improperly presented graphs.

1 Office hours

Because of our busy and varying schedule, I will hold office hours by appointment. Please contact me anytime with questions or to set up a meeting. In general I will be available to meet on campus in the afternoon and in the hotel lobby in the evening.
